Look Ahead America's Progress: 35 Georgia Counties Remove Illegal Registrants, A Dozen Pending Investigations by SOS

Washington, D.C. – Look Ahead America (LAA) continues to successfully clean state voter rolls. Email confirmations from clerks in 35 Georgia counties show that they removed and corrected ineligible, and in some cases illegal, voters from the list.

Currently the Georgia Secretary of State's Office has at least a dozen pending investigations open with materials to be presented to the Georgia State Board of Elections for review and recommendation to the Attorney General's office or appropriate District Attorneys.

It is also possible that other counties removed voters and not notified LAA about these changes.

Ian Camacho, LAA's Director of Research stated:

We are thrilled to see that our efforts in cleaning up the voter rolls and challenging ineligible voters has led to tangible results. We are also excited to see that some cases have been bumped up to formal investigations. We hope that if these lead to arrests and indictments then these will discourage people from committing voter fraud and also help to restore confidence in elections that have been so badly damaged these last few years.

LAA has published some of its voter challenge wins in late 2022, read an example here: <https://lookaheadamerica.org/gavoterwins/>.
