YouTube Censors LAA's Video of Oregon Gov. Debate, #J6 Question

Washington, DC –Today, Look Ahead America's Executive Director Matt Braynard made the following statement:

After holding over seventy events around the country to increase public awareness of the political persecution of January 6th patriots, we have encouraged the public to ask political candidates what they intend to do about this injustice.

And that question was asked at the recent Oregon Gubernatorial forum.

But when LAA shared video of that question, YouTube informed us that it was removed due to a "misinformation" to ensure the site remains "a safe place for all."

By limiting the public's ability to hear political candidate's speech, YouTube has regrettably decided to make themselves an enemy of an informed electorate and of democracy.

We encourage states to remedy this by passing our Free Speech initiatives to crack down on corporate regulation of legal speech.

LAA's free speech public policy objectives to prevent corporate censorship can be found at <https://www.lookaheadamerica.org/speech>.

Matt Braynard is available for comment and interview. Please email Julie Fisher at julie@lookaheadamerica.org or call 202.709.6252.
