

LOOK AHEAD AMERICA

Voter Audit 2022 Project

Date: September 11, 2022

From: Matt Braynard, Look Ahead America Executive Director

Look Ahead America's Voter Audit 2022 Project is designed to help identify and remove voters who should no longer be on the voter rolls. As demonstrated in previous research from Look Ahead America, these bad voter records are a vector for illegal ballots to be cast.

This project is operating on a state-by-state basis driven by funding. Our initial four states that we have funding to audit are Arizona, Ohio, Pennsylvania, and Georgia. Depending on additional contributions and donor direction, the next states we expect to audit are Wisconsin, Nevada, Florida, North Carolina, New Hampshire, and Colorado. The approximate cost of adding a state is \$10,000.

Each state's voter audit will entail the following process:

Phase 1: Data Analysis

After obtaining the raw voter file from the state, we will match it against two other government databases: the National Change of Address database (NCOA), and the Residential Address Verification database. The first determines if the voter has permanently moved out of state, and the second determines if the voter is at a valid residential address as opposed to a PO Box (which is an illegal registration location in most states).

Phase 2: Notification of the Secretary of State, Publicity Push

We will then forward our findings to the respective state's secretary of state and announce our findings publicly. This is intended to prompt the state to do their own investigation of these voters to determine their eligibility.

Phase 3: County-Level Activist Engagement

The next step involves sharing the data with county-level activists and encouraging them to reach out to their local Board of Elections to investigate the status of these voters who've been identified as potentially illegal voters.

Phase 4: Ballot Challenge Phase

LAA may coordinate with local activists to challenge the ballots of individuals who we've determined are not likely eligible to vote. Requirements and procedures for this process differ from state to state.
