Disclaimer

Disclaimer regarding illegal ballots versus illegal voters: While this report identifies many illegally cast ballots and the names of ineligible voters in whose name those ballots were cast, it does not allege that those persons necessarily cast the illegal ballots. Determining who cast a ballot, legal or otherwise, particularly as a private, non-governmental organization, proves nearly an impossible feat.

Disclaimer regarding redaction of voter information and research: The public version of this report has redacted appendixes that include voter data and supplemental research. The full version, available to government and law enforcement officials and, on a limited basis, to select individuals and members of the media, has no such redactions.

Summary

In March 2022, Look Ahead America published a report in which it confirmed illegal and questionable registrations at PO Boxes in both Arizona and Pennsylvania. The report appears here: <https://lookaheadamerica.org/azpaboxes>.

The following pages includes our correspondence to the affected county clerks in Pennsylvania. As of this writing, we have not yet heard back from the following counties:

Adams, Allegheny, Armstrong, Beaver, Bedford, Berks, Bucks, Butler, Cambria, Centre, Clarion, Clearfield, Clinton, Crawford, Cumberland, Delaware, Fayette, Jefferson, Juniata, Lawrence (did call for the files but no reply), McKean, Mifflin, Montgomery, Northampton, Perry, Philadelphia, Pike, Snyder, Sullivan, Susquehanna, Tioga, Union, Warren.

District Attorney Weeks,

Please see the email below for your consideration.

The Director of Elections can offer that some of the voters' addresses referenced below have since been changed to a street address, and as such, some of the data referenced below is old. Additionally, Voter Registration is attempting to contact some of the other remaining voters with PO Box addresses to obtain physical addresses. As you know but for the benefit of the party sending the email below, the Board of Elections does not have authority to prosecute voter fraud on its own; state law requires referrals to your office. The Director of Elections and Voter Registration would be happy to discuss with an investigator or other member of your staff the updated addresses and attempts to contact the other voters as well as provide information regarding any of these voters that continue to have a PO Box as an address.

Thanks,

Dear Blair County,

I am writing to follow up with you in regards to these 37 voters sent your way last month who appear to be illegally registered at and who seem to have voted from P.O. Boxes at the USPS and UPS Store as their residential addresses.

While you may have already removed these voters from your rolls, if you missed them then we are notifying you as these registrations could suggest an intent to hide the nature of their addresses by marking them as a unit, suite, or apartment, or it could simply be a clerical error, or it could be something else like a grandfather clause.

To be clear, these are not the voters' listed mailing addresses, but their listed residential addresses. Many voters we found either had no mailing address or the residential address was the same as the mailing address, which was linked to a nonresidential location - meaning transposition or clerical error would not be possible or explain the reasoning.

We request an investigation into these 37 individuals who appear to have registered and voted from what appear to be P.O. Boxes. If these are indeed fraudulent registrations, we would like at minimum to have the voter rolls cleaned, but ideally be prosecuted if any of those voters intentionally deceived the county registrars and state of Pennsylvania.

Please keep us posted of the results of the investigation into these voters, thank you!

Kind Regards,
Ian Camacho

Hello,

I review the list provided. [REDACTED] was cancelled in 2021 as he is now deceased. [REDACTED] was cancelled in February of 2022 as he is also deceased. [REDACTED] has a physical address listed on his record and provided ID in 2005 and 2020 when he changed his address via an application from PennDOT.

As far as the remaining six voters, they all have provided a form of ID since 2020. However, they registered under the old PA Voter Registration Act which did not require a physical address at that time. We will work on obtaining a physical address for their records.

Thank you for bringing this to my attention.

Use.

Thank you for responding, however, if you look at these addresses then you will see that all of what we submitted are listed as registration addresses. Many are also listed in the mailing addresses, but even if transposed, then this would not be permitted as you will notice that they are non-residential.

Additionally, all the county property records, maps, and USPS websites confirm their status as non-residential USPS properties.

For instance, [REDACTED] address is clearly a USPS property and owned by the USPS:

118 North St

PO Box 301

Lehigh, PA

<https://doi.org/10.1093/oxfordjournals/qjcp.a027002>

Likewise, [REDACTED] is at:

100 Little Gap Road

BD Box 9

Aquashicola, PA 18102

A property that is USPS owned (not leased) according to the Carbon County property records.

https://www.google.com/maps/place/United+States+Postal+Service/@40.8112632,-75.5905118,3a,75y,202.76h,77.84t/data=!3m1!1e3!3m4!1sZ0F-MN1dZb_-Suaa0iAaew!2e3!1s3312065556!4e3!3m4!1sch98a4406f6ah3b37-0x5baad49b279b62118m2!3m3!1s344d_8112555!4e3!3s_5907286

Likewise, [REDACTED] are at

403 Blue Mountain Rd

Ashfield, PA 18212

Unless they can show that they reside there, this is a USPS / Fire Station / Social Hall:

<https://www.google.com/maps/place/United+States+Postal+Service/@40.7794893,-75.7128784,17z/data=!3m1!1e3!3m4!1s0x89c44b54ad17e185:0x5637916b06408df8m2!3d40.7794853!4d-75.7106897>

I assume you have access to the county property records.

Thank you for the update on

I request that you review these examples as these were residential addresses, not merely mailing addresses.

Dear Chester County Elections Division,

We are bringing to your attention 48 voters in your county who appear to be illegally registered at and who seem to have voted from P.O. Boxes at the USPS, UPS & Fedex as their residential address. This would suggest an intent to hide the nature of their address by marking it as a unit, suite, or apartment.

Several either had no mailing address or were linked to a P.O. Box - meaning transposition or clerical error would not be possible or explain the reasons.

This is not permitted according to the registration form which reads "Address (not P.O. Box)"

https://www.vote.pa.gov/Resources/Documents/Voter_Registration_Application_English.pdf

We also reviewed the relevant state voter registration laws to confirm that these voters were not qualified to vote from a P.O. Box under any lawful exemptions before making our determination.

Title 25 [Elections], Chapter 13 [Voter Registration], Subchapter A [Qualifications], Section 1302 [Residence of electors], subsection (B)(1) makes this explicitly clear that one cannot vote using a post office box (or similar like a UPS, FedEx, etc.):

(b) Rules for determination. -- The following apply:

(1) That the place shall be considered the residence of an individual in which habitation is fixed and to which, whenever the individual is absent, the individual has the intention of returning.

Also, 9 of the voters have already provided us with updated residential addresses since the time you pulled the original lists to create your data check.

And lastly, 7 of the voters have already had their registration in Dauphin County cancelled due to moving out of county/out of state.

Again, thank you for taking the time to share this information with us and helping us update our voter registration rolls.

While you may have already removed these voters from your rolls, if you missed them then we are notifying you as these registrations could suggest an intent to hide the nature of their addresses by marking them as a unit, suite, or apartment, or it could simply be a clerical error, or it could be something else like a grandfather clause.

To be clear, these are not the voters' listed mailing addresses, but their listed residential addresses. Many voters we found either had no mailing address or the residential address was the same as the mailing address, which was linked to a nonresidential location - meaning transposition or clerical error would not be possible or explain the reasoning.

We request an investigation into these 47 individuals who appear to have registered and voted from what appear to be P.O. Boxes. If these are indeed fraudulent registrations, we would like at minimum to have the voter rolls cleaned, but ideally be prosecuted if any of those voters intentionally deceived the county registrars and state of Pennsylvania.

Please keep us posted of the results of the investigation into these voters, thank you!

May I ask you where you got the response you initially used to reply to me? I got the same exact one almost verbatim from Mr. Forrest Lehman of Lycoming County and so it seems this is being shared and coordinated responses.

I ask as others have confirmed they are opening investigations, and that some are legacy issues, etc. so these are not all baseless and incorrect. It just seemed like an odd reply, busy or not.

[EXTERNAL MESSAGE - EXERCISE CAUTION]

Got it, thank you for clarifying, Patti.

To be clear, I am not accusing you or the county of anything. I am not even accusing the voters, but I am saying it appeared that they were registered at PO Boxes.

When you write the voter "moved out of the county but not before the election" and was at that address, did they still not cast a ballot using that address? How about the person that did not move?

I understand that they are canceled/removed now, but what about the past ballots previously cast? How would this be legal in any form?

What I'm saying is HAVA et al overlooked it as these are clearly not residential addresses, as ERIC et al missed things. So the only way that we on our end made an error is if this is mailing address but not residential, however, you confirmed that these were listed as their residential addresses and so even if these have since been corrected/canceled, it was still an illegal registration and vote cast and the statute of limitations apply.

What am I missing here that you have and I am not seeing? I'm not trying to be obtuse, please tell me where the error is on our part.

Good afternoon Ms. Hess,

Thank you for also confirming in writing these locations are where the remaining 2 voters are indeed registered to vote. You will notice that there are no mailing addresses, only residential ones listed according to the sheet I sent.

Also, one of these 2 addresses did not even have a box number, if you take a look.

If you look at the maps, USPS websites, and various county property records, to which I am certain you have access, then you will see that not one of these are residential locations, despite what the voter rolls state. Let us review the data together seeing as how we are discussing the sole address of

115 E MAPLE ST

MCCONNELLSBURG PA 17233

<https://tools.usps.com/find-location.htm?location=1372302>

<https://www.google.com/maps/place/115+E+Maple+St,+Mcconnellsburg,+PA+17233/@39.9310826,-77.999118,3a,75y,177.78h,79.46t/data=!3m6!1e1!3m4!1s4g54kS2Z77.9991798>

These are not "baseless" accusations but backed by actual real world evidence from multiple sources unless you are going to claim that the United States Post Office, Google maps, and Fulton County property records are all incorrect. Please review the data that you have confirmed in writing.

(And in any case, even if your voter was canceled as of 2021, did they not cast a ballot in 2020 using a P.O. Box as a residential address? Unless both were entered incorrectly due to a clerical / administrative error, then how would this be legal in any situation? Note that we are also not past the 2 year statute of limitations to investigate potentially fraudulent activity on the behalf of a voter for another 6 months, and so this point is not a moot one.)

I'm open to see what your research into the voter registration records uncovers.

Good afternoon – thank you for your email purporting to identify voters in Fulton County who are registered to vote at a PO Box, which appears to have been a form email transmitted to all 67 counties.

However, your data is out of date and your data is incorrect.

Firstly, 1 of the 2 voters were cancelled back in 2021, which would suggest that your emails are based on voter registration data that is over 1 year old.

Secondly, according to your own spreadsheet, 0 of the 2 identified voters are registered at a post office box. Their residential addresses for voting purposes are Box numbers and Street names that are legal residents. Not a single one of those addresses is a PO box. Also, for your future reference, a voter may designate a PO box as their mailing address on their voter registration record, or as the mailing address for a mail ballot. That does not suggest that the voter has "something to hide" as you allege.

You have not identified a single registered voter in Fulton County that is registered to vote at a PO box.

In the future, before you baselessly accuse a county of illegally registering voters, I suggest that you support your allegations with the most recent available voter registration data and review the contents of said data before transmitting it. Have a wonderful day, and thank you for taking up a very busy time for all the counties at election time.

Dear Fulton County Elections Division,

We are bringing to your attention 2 voters in your county who appear to be illegally registered at and who seem to have voted from P.O. Boxes at the USPS as their residential address. This would suggest an intent to hide the nature of their address by marking it as a unit, suite, or apartment.

Several either had no mailing address or were linked to a P.O. Box - meaning transposition or clerical error would not be possible or explain the reasons.

This is not permitted according to the registration form which reads "Address (not P.O. Box)"

https://www.vote.pa.gov/Resources/Documents/Voter_Registration_Application_English.pdf

We also reviewed the relevant state voter registration laws to confirm that these voters were not qualified to vote from a P.O. Box under any lawful exemptions before making our determination.

Title 25 [Elections], Chapter 13 [Voter Registration], Subchapter A [Qualifications], Section 1302 [Residence of electors], subsection (B)(1) makes this explicitly clear that one cannot vote using a post office box (or similar like a UPS, FedEx, etc.):

Good Afternoon Judy,

Thank you for researching this.

That would appear to confirm that it is a nonresidential post office according to the USPS and Google Maps and county records:

Good afternoon Mr. Camacho,

Thank you for reaching out with your concerns. Upon review of the records you sent, I have found that one of these five individuals does have a PO Box listed as their residential address. This is a data entry error that occurred when our rural address system was updated. Each resident that had an address from the old addressing system was given a new physical address. It looks like the clerk at the time mistakenly entered his PO Box as his residential address rather than entering the updated physical address. A plan of correction is in place.

The remaining four voters that you identified all have a physical address in Huntingdon County attached to their record.

Dear Huntingdon County Elections Division,

We are bringing to your attention 5 voters in your county who appear to be illegally registered at and who seem to have voted from P.O. Boxes at the USPS as their residential address. This would suggest an intent to hide the nature of their address by marking it as a unit, suite, or apartment.

Several either had no mailing address or were linked to a P.O. Box - meaning transposition or clerical error would not be possible or explain the reasons.

This is not permitted according to the registration form which reads "Address (not P.O. Box)"

Dear Ms. McNulty, Ms. Hopkins, Ms. Kelly, and Ms. Harte,

I am writing to follow up with you in regards to these 44 voters sent your way last month who appear to have registered at and who seem to have voted from P.O. Boxes at the USPS, FedEx, and UPS Stores as their residential addresses.

While you may have already removed these voters from your rolls, if you missed them then we are notifying you as these registrations could suggest an intent to hide the nature of their addresses by marking them as a unit, suite, or apartment, or it could simply be a clerical error, or it could be something else like a grandfather clause.

To be clear, these are not the voters' listed mailing addresses, but their listed residential addresses. Many voters we found either had no mailing address or the residential address was the same as the mailing address, which was linked to a nonresidential location - meaning transposition or clerical error would not be possible or explain the reasoning.

We request an investigation into these 44 individuals who appear to have registered and voted from what appear to be P.O. Boxes. If these are indeed fraudulent registrations, we would like at minimum to have the voter rolls cleaned, but ideally be prosecuted if any of those voters intentionally deceived the county registrars and state of Pennsylvania.

Please keep us posted of the results of the investigation into these voters, thank you!

This is not permitted according to the registration form which reads "Address (not P.O. Box)"

https://www.vote.pa.gov/Resources/Documents/Voter_Registration_Application_English.pdf

We also reviewed the relevant state voter registration laws to confirm that these voters were not qualified to vote from a P.O. Box under any lawful exemptions before making our determination.

Title 25 [Elections], Chapter 13 [Voter Registration], Subchapter A [Qualifications], Section 1302 [Residence of electors], subsection (B)(1) makes this explicitly clear that one cannot vote using a post office box (or similar like a UPS, FedEx, etc.):

(b) Rules for determination. -- The following apply:

There is no indication of any fraudulent cases.

One case of outdated data (which wasn't an issue, your file pull overlapped the standard update) and then a handful of people who flipped their mailing address and physical addresses. It's a common issue for people living in nursing homes. That seems to be the case for most of the records here. They will be contacted this Summer and asked to reregister with their physical address instead of the mailing one. Standard procedure stuff.

We actually would have been sending out calls/letters to people already in the upcoming weeks who were affected by these kinds of situations. It just takes a while to sift through it all.

Thanks again for the feedback!

Thank you for the apology, Mr. Lehman.

That clarifies the question I had on these 2 addresses you mentioned, thank you.

In that case, my question now has changed on these 3 voter records (that is, the 1 inactive + these 2 residential addresses changed since 2020), even if they are based on 2020/out of date records:

Although these 3 voters were previously registered at P.O. Boxes in Lycoming County have had their statuses updated to eligible residential addresses or marked inactive as of 2021, did they not cast a ballot in 2020 using a P.O. Box as a residential address? (This same question applies to the other 6 voters now marked inactive and under review, and those 2 canceled in 2021 by the way)

Unless all 11 were entered incorrectly due to a clerical / administrative error, then how would this be legal in any situation? Note that we are also not past the 2 year statute of limitations to investigate potentially fraudulent activity on the behalf of a voter for another 6 months, and so this point is not a moot one.

I'm open to see what your research into the voter registration records uncovers. Thank you for looking into our discovery, even if our methodology could be improved. We will note that and work to bring it current on the next iteration.

I apologize for assuming the worst of your motives; however, I do not apologize for criticizing the methodology. If you and/or your organization are going to level allegations about voter registration data, the data in question should be current and vetted. Data that is months to years old causes the number of allegedly affected records to appear unnecessarily inflated.

Mr. Lehman,

I appreciate you confirming the removal of those 2 prior voters in 2021, thank you.

To be clear, I had included the list in my initial email and explained that these are all USPS and UPS PO Box registrations.

I also never said at any point in my initial email that this was proof positive of voter fraud, but rather that they "appear to be illegally registered at and who seem to have voted from P.O. Boxes at the USPS and UPS as their residential address" and why I wrote they "appear to have registered and voted from what appear to be P.O. Boxes. If these are indeed fraudulent registrations [...]"

At no point did I write "have something to hide" but rather you put those words in my mouth. We also didn't know if they were fraudulent, but the fact that they are listed as units, apartments and/or suites would suggest they are, but again it could be clerical error, which was why I was requesting further investigation.

While I can and do make mistakes, so do county election clerks and directors, as the case appears to be here. For example, neither the addresses of 996 Vallamont nor 2066 Lincoln appear anywhere in our list and so I have no idea where you got those addresses from; those 2 voters should not be ignored as those are not residential - unless you are trying to communicate to me that these voters have since updated their addresses to those locations?

Instead of assuming that I was in the wrong and falsely accusing without doing any research on your end, I was hoping that you would do the investigations and not make assumptions, such as accusing me of sending to all 67 PA counties. I have sent to only those counties affected. I must admit I am rather disappointed in your response as none of the other county clerks or directors have responded in such a hostile manner.

Frankly, I believe that as a public servant you owe me an apology for your rather condescending, dismissive, and disrespectful tone and assuming false motives on my behalf. I am hoping that we can remain professional and courteous to one another from this point and moving forward.

Good afternoon – your original email alleged that voters were registered at PO boxes, and did not include any supporting information to document that the house numbers and streets provided were not residential.

2 of the 11 voters were cancelled in 2021, as previously stated.

2 of the 11 are residential addresses (I notice you did not follow up on 996 Vallamont or 2066 Lincoln).

1 voter is already Inactive.

6 remaining voters will be marked Inactive pending further investigation.

The observation stands that the information on which your allegations are based is out of date and should be current and vetted before leveling allegations. Statewide, half of the records being identified to counties are already cancelled or otherwise out of date.

Dear Mr. Lehman,

Thank you for confirming in writing these locations are where the remaining 9 voters are indeed registered to vote. You have confirmed in writing that these are indeed nonresidential locations: "Their residential addresses for voting purposes are 1784 E 3rd St, 101 S Main St, 621 Hepburn St, and 335 Broad St. Not a single one of those addresses is a PO box."

If you take a look at the maps, UPS and USPS websites, and various county property records, to which I am certain you have access, then you will see that not one of these are residential locations, despite what the voter rolls state. Let us review the data together:

Good afternoon – thank you for your email purporting to identify voters in Lycoming County who are registered to vote at a PO Box, which appears to have been a form email transmitted to all 67 counties.

However, your data is months out of date and your interpretation of your own data is incorrect.

Firstly, 2 of the 11 voters were cancelled back in February 2021 and July 2021, which would suggest that your accusatory emails are based on voter registration data that is over 1 year old.

Secondly, according to your own spreadsheet, 0 of the 11 identified voters are registered at a post office box. Their residential addresses for voting purposes are 1784 E 3rd St, 101 S Main St, 621 Hepburn St, and 335 Broad St. Not a single one of those addresses is a PO box. Also, for your future reference, a voter may designate a PO box as their mailing address on their voter registration record, or as the mailing address for a mail ballot. That does not suggest that the voter has "something to hide" as you allege.

You have not identified a single registered voter in Lycoming County that is registered to vote at a PO box.

Commissioner Boyd – Now that the election is complete, we have fully researched these eight individuals. Four of the individuals have re-registered at new addresses. The remaining four have been sent letters informing them that they must either return their Address Verification Notice with a residential address or reregister to vote at a residential address. Their registrations are listed as on-hold in the voter registration database until this issue is rectified.

Thank you.

I wonder though how a homeless person can pay for a PO box as those usually require a credit or card to ensure monthly/yearly payment, and those cards require a home address.

Dear Ms. Ferro and Mrs. May-Silfee,

I am writing to follow up with you in regards to these 39 voters sent your way last month who appear to have registered at and who seem to have voted from P.O. Boxes at the USPS and FedEx as their residential addresses.

While you may have already removed these voters from your rolls, if you missed them then we are notifying you as these registrations could suggest an intent to hide the nature of their addresses by marking them as a unit, suite, or apartment, or it could simply be a clerical error, or it could be something else like a grandfather clause.

To be clear, these are not the voters' listed mailing addresses, but their listed residential addresses. Many voters we found either had no mailing address or the residential address was the same as the mailing address, which was linked to a nonresidential location - meaning transposition or clerical error would not be possible or explain the reasoning.

We request an investigation into these 39 individuals who appear to have registered and voted from what appear to be P.O. Boxes. If these are indeed fraudulent registrations, we would like at minimum to have the voter rolls cleaned, but ideally be prosecuted if any of those voters intentionally deceived the county registrars and state of Pennsylvania.

Please keep us posted of the results of the investigation into these voters, thank you!

We also reviewed the relevant state voter registration laws to confirm that these voters were not qualified to vote from a P.O. Box under any lawful exemptions before making our determination.

Title 25 [Elections], Chapter 13 [Voter Registration], Subchapter A [Qualifications], Section 1302 [Residence of electors], subsection (B)(1) makes this explicitly clear that one cannot vote using a post office box (or similar like a UPS, FedEx, etc.):

(b) Rules for determination. -- The following apply:

2 of the voters are deceased and their records had been cancelled; both were deceased in 2021.

1 of the voters completed paperwork on their own to change their address to a residential address

The other 9 voters were sent letters explaining the correct registration procedures along with paperwork to complete with their correct physical address. We will follow up if they do not respond timely.

I am writing to follow up with you in regards to these 12 voters sent your way last month who appear to have registered at and who seem to have voted from P.O. Boxes at the USPS and UPS Stores as their residential addresses.

While you may have already removed these voters from your rolls, if you missed them then we are notifying you as these registrations could suggest an intent to hide the nature of their addresses by marking them as a unit, suite, or apartment, or it could simply be a clerical error, or it could be something else like a grandfather clause.

To be clear, these are not the voters' listed mailing addresses, but their listed residential addresses. Many voters we found either had no mailing address or the residential address was the same as the mailing address, which was linked to a nonresidential location - meaning transposition or clerical error would not be possible or explain the reasoning.

We request an investigation into these 12 individuals who appear to have registered and voted from what appear to be P.O. Boxes. If these are indeed fraudulent registrations, we would like at minimum to have the voter rolls cleaned, but ideally be prosecuted if any of those voters intentionally deceived the county registrars and state of Pennsylvania.

Please keep us posted of the results of the investigation into these voters, thank you!

Dear Mr. Camacho,

I did receive your previous email and did investigate the person in question. Yes, he was registered at the address associated with a Post Office. I then proceeded to place the individual on "Inactive" status and sent him an Address Verification Notice as required by the Pennsylvania Department of State. He has not responded as of today, nor has the letter been returned as Undeliverable.

He will remain on inactive status until after the November 2024 General Election unless he contacts my office with updated information. If no contact has been made by the November 2024 Election, he will be removed from the voter records. I am following the protocol set by the Pennsylvania Voter Registration Act.

I have also adjusted my street block ranges so that no one may use that address in the future.

Regards,
Cindy Furman, Director of Elections
Wayne County, Pa

He had no mailing address meaning transposition or clerical error would not be possible or explain the reasons.

This is not permitted according to the registration form which reads "Address (not P.O. Box)"

https://www.vote.pa.gov/Resources/Documents/Voter_Registration_Application_English.pdf

We also reviewed the relevant state voter registration laws to confirm that these voters were not qualified to vote from a P.O. Box under any lawful exemptions before making our determination.

Title 25 [Elections], Chapter 13 [Voter Registration], Subchapter A [Qualifications], Section 1302 [Residence of electors], subsection (B)(1) makes this explicitly clear that one cannot vote using a post office box (or similar like a UPS, FedEx, etc.):

Hello Ian,

Thank you for taking time out of your busy day to share your concern about our election. I forwarded your email to our head of Elections, his name is Greg McCloskey.

He sent me the following message. (Jess is an employee in the Elections Department.) I will be following up with the elections office to make sure that the information has been updated as indicated. Thank you again for bringing this to our attention. Please feel free to contact us in the future with any concerns you may have.

Thank you,

Good morning Cindy,

Jess investigated each item and below are our findings:

2 are dead and not active in our system.

3 have PO Box numbers as their residential address and need corrected. We need to send the voter a registration update application as we have no known residential address for them.

5 are patients at Torrance State Hospital and need corrected to a street name.

6 have a residential address in SURE and the PO Box is just a mailing address.

13 are wrong in our system and we will update them in our system as we have the correct residential address to enter in the system from their application.

These changes cannot take place until 20 days after the election due to the system being locked down after each election.

All county election bureaus appear to have received the same e-mail with their issues identified

.

Thanks, Greg
